OVERVIEW

In this CIS Report compiled by our Research Team, we take a look at the Education sector on a national level for the Republic of Ireland and compare levels of activity from April to September for 2019 & 2020.

The report highlights the activity levels for plans that have been submitted, plans approved, on-site projects and those that have been completed.

Furthermore we list out the Top 10 Main Contractors & Architects that have been attached to projects in the last year along with a selection of the top Education projects from the last 5 months.
